

Beginner  
Homeschool Edition

I  My Short Vowels  
Bingo Set

By

Squishable **B****A****B****Y**.com

Vowels are the most used letters in the English language, so it makes sense that they are learned first.

This activity can supplement any phonetic curriculum. More word lists and letter blends are coming

soon.

# Instructions

1. All materials can be printed out on heavy cardstock or laminated to increase durability.
2. Word lists should be cut out, and initially separated into short vowel sounds at the beginning of words and short vowel sounds at the end of words. When your child becomes comfortable, you can mix them up – for a more advanced activity.
3. Bingo chips should be cut out to use.
4. You can play the game however you wish – 4 corners, all covered, or 3 in a line.
